

A4 PRINTING INSTRUCTIONS

Before you get started on creating your Rossi of Fredy Wrap, make sure to read the below notes so that you can make sure your printer is calibrated and prints the patterns to the correct size.

Before you begin, please make sure you are printing on A4 paper with an A4 printer, not letter paper as the small difference in the paper size can mean your patterns don't print correct. A4 measures 210 x 297mm

1. Select Layers / styles:

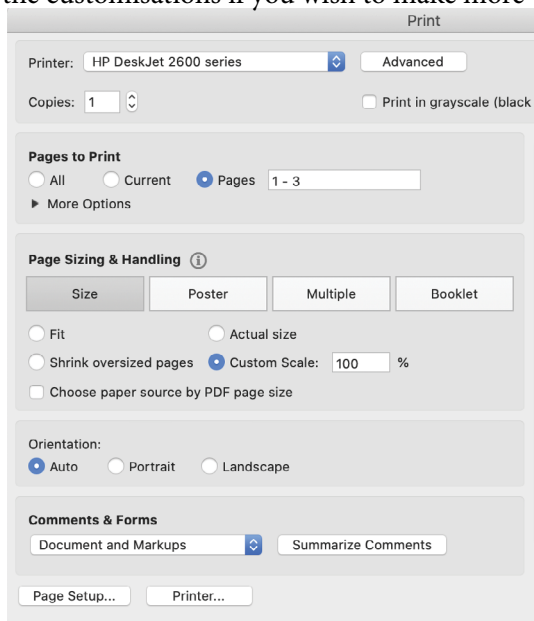

Make sure you have gone through the PDF and selected all necessary layers + Customisations that you need for your Rossi / Fredy Wrap in instructions. You can print out all the customisations if you wish to make more variations in future.

2. Print the first three pages as a test print:

We strongly suggest printing the first three pages as a test to make sure everything is set up correctly, to save time, paper and the environment.

When printing in Adobe Acrobat, do as follows:

- File > Print
- Select your printer
- Click 'Pages' and then type '1 - 3' (for test print)
- Click 'Custom Scale' and type '100%'
- Click 'PRINT'

3. Calibrate and measure

When printing, although you would've selected '100%', most common household printers will print with a white border. Don't worry, this won't affect measurements and you **SHOULD NOT** trim the borders. However, to check this is correct for your printer – we have provided two tests of calibration squares.

3a: Single Square Calibration

On the first pattern page, you will see a 5x5cm square and a 1"x1" square. Using your ruler, measure these squares to make sure they (along with your patterns) have printed to the correct scale.

Note: These calibration squares are an example only and are not printed to scale.

3b: Across-Page Diamond Calibration

You will then see a grey diamond split across the first two pattern pages (similar to the below example). Simply measure from one corner of the diamond to the other corner. This should measure 5cm from left point to right point.

Note: This diamond is an example only and is not printed to scale.

4. You're all set and ready to go!

Once you have successfully tested and printed the first couple of pages, and double-checked the calibration as per steps 3a and 3b, you're all set to go!

Grain Line

A rectangular diagram representing a fabric piece. It features a solid top and bottom edge, and a vertical line on the left side. Two horizontal dotted lines are positioned near the top and bottom edges. A vertical double-headed arrow on the left side is labeled 'Fold Line'. A horizontal double-headed arrow at the bottom is labeled 'Grain Line'. The text 'ROSSI & FREI', 'SIZE 8', and 'SHORT PUFF SLEEVE CUFF' is centered within the rectangle.
